

12. **"Now that I have lost the hope of ever being worth anything in the future, all my life's purpose lies in Bronya and you. ...the more sorry I feel because I can't make more of my life, the more hope I have in you"**
- This was Marya's letter to her brother who left Warsaw. She wanted him to continue his study.
13. **"I shall not be away long....as soon as I have finished....I'll come back. We shall live together...."**
- It was said by Marya to her father. He was saying goodbye to her in the train station.
14. **"Come back quickly. Work hard. Good Luck."**
- It was said by Marya's father to her. He was saying goodbye to her in the train station. She was travelling to France to get her education. He wished her god luck.
15. **"Don't light the lamps....Look!....Look!."**
- Marie Curie said that to Pierre Curie when they entered their lab. It was the first time they saw the Radium.
16. **"We must talk about our radium....the whole world will want Radium."**
- Pierre Curie said that to Madam Curie. They discovered radium and got offered to sell their discovery.
17. **"But scientists always give their discoveries to the world."**
- Madam Curie said that to Pierre Curie. She refused to sell her discovery for money.
18. **"I need a gram of radium to continue my laboratory work.."**
- It was said by Madam Curie to an American lady who asked her about her wish in life.
19. **"My laboratory has hardly one gramme"**
- Marie said that to the American lady. She didn't have much radium.
20. **"I? Oh I have none, it belongs to my laboratory."**
- Marie said that to the American lady. She didn't have much radium.
21. **"if you had the whole world to choose from, Madam what would you take?"**
- The American Lady said that to Marie. Marie needed radium.
22. **"No, not next week..Not tomorrow."**
- Marie said that to her friend. she needed the radium to be for the lab not in her name.
